

Record Retention

what you need to keep & for how long

Landcare organisations accrue all sorts of records, such as employee records, project records, documents relating to tax, banking, payroll and insurance. The question is, how long does your organisation need to keep these records?

Different records need to be retained for different periods of time. The below table outlines suggested

retention periods for commonly used documents. After the initial retention period has ended, records may be destroyed.

NOTE: A record should be maintained of all documents that have been destroyed. This will provide an auditable trail of the management of your organisation's records, should there be a request for it in the future.
